

Borneo Rail Nostalgia

DURATION: 5 HOURS

CAPACITY: 80 PAX

Take a journey back into the colonial days of British North Borneo onboard the North Borneo Railway – featuring the mid-century British “ Vulcan “ Steam . Windows remain open throughout the journey to enhance the overall heritage experience, and high-powered fans line the ceilings to ensure maximum comfort.

North Borneo Railway is the last fleet of locomotives that have plied the tracks through Borneo since 1900's. Enjoy the unique sights and sounds from the newly renovated and stylish observation deck passing local villages , paddy fields , mangrove jungle and pristine coastal beaches as you pass away a leisure day in comfort . Marvel at the little children waving wildly at the slow-moving train. Then at small markets people all stopped their shopping to look up and smile as the train trundled by. Again, big smiles and lots of waves from young and old alike. It makes the train journey heartwarming.

A short excursion to Kinarut town , a Chinese Temple and a local market in Papar is included where you will witness the diversity of the people from the interior with their jungle produce such as honeycombs , bees wax , iron goods and much more.

Lunch will be “ Tiffin “ styled with a blend of colonial and continental cuisine.

Return to hotel approximate 1500hrs. Free at leisure.

ENHANCEMENTS
